DELEGATION OF PROMINENT MEN

Appears Before a Special Congressional Committee and Explains the Commemoration of Louisiana Purchase.

Washington, April 27.—The house committee room on insular affairs was filled to overflowing with a distinguished body of representative men from the west and southwest, who appeared to make formal presentation for the project of an international exposition at St. Louis in 1903, to commemorate the Louisiana Purchase and the resulting development of the Mississippi valley and its vast tributary sections.

Bills already have been introduced in the senate by Mr. Cockrell and in the house by Mr. Lane, giving a national aspect to the enterprise and providing a \$5,000,000 appropriation in its aid. This has attracted the attention and encouragement of the sections throughout the middle west, and the delegation now appears to urge the magnitude of the project from a commercial and national standpoint and to give it a status which it is hoped will secure favorable consideration in the present congress.

The delegation was made up of governors, ex-governors, mayors of leading cities, former cabinet officers and men prominent in public and business life.

The hearing was given under the auspices of the special committee on the centennial of the Louisiana Purchase, consisting of Representatives Tawney, chairman; Steele, Sherman, Joy, Corliss, Burke, Williams (Miss.), Bartlett and Otey.

Ex-Secretary Francis, of Missouri, opened the hearing. After tracing the development of the subject, Mr. Francis proceeded:

"St. Louis, as the largest and wealthiest city in the Louisiana Purchase, was selected as the location for such an exposition, and the scale upon which it should be held was defined by the convention of states and territories in the purchase. The convention decided that a sum less than \$15,000,000 would be insufficient to properly launch an exposition of the character named, and that five millions thereof should be furnished by the general government.

"The bill before you pledges to the exposition government aid to the extent of \$5,000,000, which, however, is not to be appropriated until the city of St. Louis shall have reached the sum of \$10,000,000, and when the \$5,000,000 is appropriated, it is not to be made available until \$10,000,000 furnished by St. Louis shall have been expended to the satisfaction of the secretary of the treasury. I submit to you as fairminded men whether St. Louis is not doing her full duty in agreeing to furnish \$10,000,000 of the \$15,000,000 required.

"If congress at its present session should refuse or fail to pledge the \$5,000,000 provided for in this bill, the constitutional amendment calling for the increase in the bonded debt in the city of St. Louis would, in my judgment, fail of passage at the November election. It cannot be voted upon again and the project would consequently have to be abandoned."

Mr. Francis was frequently interrupted with questions by members of the committee.

Sinclair Cross-examined.

Washington, April 27.—The cross-examination of Bartlett Sinclair was concluded at the Coeur d'Alene investigation before the house military committee. Nothing new was developed. Captain J. W. Bennett, an aid on the staff of General Merriam, was then placed upon the stand. He described his journey with General Merriam from Denver to Wardner, and said he was present at the interview on the train between General Merriam and Governor Steunenberg while they were en route on April 30, the day after the Bunker Hill mine was blown up. In response to General Merriam's question as to whether it was still necessary to bring troops, Governor Steunenberg had emphatically responded in the affirmative. Under General Merriam's direction he had censored all telegrams filed at the telegraph office relating to the movement of troops and the military situation there. He examined all press dispatches at Wardner. In only one case had he occasion to object to anything filed.

Brief Cabinet Meeting.

Washington, April 27.—Owing to the absence of three members of the cab-

inet, Secretaries Gage, Root and Long, the meeting lasted but little more than an hour, and no business of importance, it was stated, was transacted. The attorney general recommended to the president the nomination of William Wirt Howe as United States attorney for the district of New Orleans.

HOOTED AND HOWLED.

Several Hundred Youthful Strikers Create a Stir at Allegheny.

Pittsburg, April 27.—Two hundred boys employed at the Pressed Steel Car works in Allegheny, who struck for an increase in wages, with several hundred sympathizers, assembled near the plant and paraded up and down the street, hooting and howling at the workmen. Two Italians were chased, and but for the timely arrival of the police would have fared badly at the hands of the mob. The boys were employed as rivet heaters, and are striking for an increase of 15 cents a day and a helper. Ninety-five men work on the steel presses, and 40 axle turners have also quit. The steel pressers want \$1.65 for a 10-hours day and the turners grievance is over the employment of a nonunion man.

Strike Extends.

Detroit, April 27.—The strike of the job pressmen, feeders and assistants assumed larger proportions. Pressmen's Union No. 2 decided to support the junior union, and its members were ordered out on a sympathetic strike. The shops which are holding out against the union are tied up more effectively than before. A half-dozen of the leading job offices have signed the scale and recognized the union.

Granted a Divorce.

New York, April 27.—A motion to confirm the report of referee in the action for divorce brought by Mrs. Rita Stokes against W. E. D. Stokes, was made before Judge Bischoff. There was no opposition and the judge said he would confirm the report. The decree submitted for the judge's signature grants absolute divorce on statutory grounds and permits Mrs. Stokes to marry again. She is allowed to resume her maiden name, is given the custody of their only child, and is to receive alimony \$12,00 a year.

Death of Mother General.

South Bend, Ind., April 27.—Mother M. Annunziata, mother general of the Sisters of the Order of the Holy Cross, the headquarters of which for the United States is St. Mary's academy of this city, died from heart disease.

The funeral will be held at St. Mary's on Tuesday. Her family name was Margaret McShaffery. She was born in 1843 and educated in Philadelphia. She received the habit of the order in 1860 and took the final vows five years later. In 1895 she became mother general of the order.

Two Men Killed.

Philipsburg, N. J., April 27.—A passenger train struck and instantly killed two unknown men, who were walking on the track near Bloomsbury. The engineer was unaware of the accident until the train reached here, when the pilot of the engine was found covered with blood. Word was telegraphed to Bloomsbury and the bodies of both men were found on the track, horribly mangled.

Queen Enthusiastically Received.

London, April 27.—Thousands of persons witnessed the landing of the queen at Holyhead, where she arrived on her return from Ireland. The royal special train started southwards at 11 a. m. amid an enthusiastic demonstration.

On the arrival of her majesty at Chester, the mayor and corporation of that place presented her with an address.

Approved the Law.

Indianapolis, April 27.—The supreme court of Indiana affirmed the constitutionality of the Barrett improvement law, under which improvements are paid for by the front foot assessment. The case came before the supreme court on an appeal from Shelbyville.

Resignations Accepted.

Copenhagen, April 27.—At a cabinet council King Christian accepted the resignation of the Horring cabinet and appointed a new rightist ministry. The premier and minister of foreign affairs is H. DeSehested, vice president of the landsting.

Struck by a Tornado.

Dallas, April 27.—A tornado passed through the southern part of Johnson county doing terrible destruction. The town of Blum in Hill county was partly destroyed and several persons fatally injured.

Washington, April 27.—President McKinley arrived in Washington from Canton. Accompanying them was Captain and Mrs. Lafayette McWilliams, of Chicago; Dr. Rixey, Mr. William S. Hawk, of New York; Mr. George Barber, of Canton; Private Secretary Cortelyou and Stenographer Leonard

Lie Portions of Neighboring Cities In Province of Ontario.

LOSSES WILL RUN INTO MILLIONS.

Four Lives Lost During the Great Conflagration at Hull and Ottawa—Summary of Property Destroyed.

Ottawa, Ont., April 27.—At 5 a. m. the fire, which has raged here and in Hull since 11 a. m., was under control. The number of buildings destroyed will probably aggregate 2,500, entailing a loss of from \$15,000,000 to \$20,000,000. Between 12,000 and 15,000 men, women and children are homeless. Four lives were lost.

The situation at Ottawa and Hull is summarized as follows:

Ottawa, buildings destroyed, 2,000; Hull, buildings destroyed, 1,800. Total loss both cities estimated \$20,000,000.

Total insurance both cities estimated \$12,000,000. Lives lost so far as known four.

Some of the losses are: Booth Lumber company, \$3,000,000; Eddy company, \$3,000,000; McKay Milling company, \$500,000; Hull Lumber company, \$700,000; Electric Light company, \$250,000; Dominion Carbide works, \$150,000.

The wind continues from the northeast, and unless it changes the city will be safe, as the fire has about burned itself out toward the country. Should the wind turn and blow some of the burning debris toward the city there would be great danger of it breaking out again, as everything is as dry as matchwood.

The scene of the Hull fire presents a vast desert of mere ashes, out of which the porch of Notre Dame du Grace, the property of the Oblates of Mary the Immaculate, the St. Mary's school, recently built at a cost of \$15,000, and a cluster of residences round the church alone are intact. Among the ruins of a house on Washington street, Hull, was found the corpse of a man named Bernaby Myers.

All night in Ottawa the homeless ones have been going about looking for places in which to take up their abode, and in some instances, searching for members of their families. The E. B. Eddy house, which was destroyed, was a historical building. When the Duke of Connaught visited this district 30 years ago a grand ball was given him.

To Repair the Loss.

London, April 27.—The newspapers are numerous in expressing the opinion that it is the duty of Great Britain to promptly and substantially assist in repairing the losses incurred by the Ottawa fire. The St. James Gazette voices the general view, saying: "At any time such a disaster to Canada would have appealed irresistibly to the sympathies of Englishmen and the present conditions strengthen the obligation. We have plenty on our hands with the South African war and the Indian famine, but we shall not be backward in doing all we can for our Canadian brothers till the bottom dollar is reached."

About the Insurance.

New York, April 27.—American Fire Insurance companies will, it is believed, suffer little from the Ottawa fire. The Aetna of Hartford, Phoenix of Brooklyn, Phoenix of Hartford, Connecticut Fire, Queen of America and the Insurance company of Northern America do business in Canada, but of these one or two are said to confine their operations to Montreal risks exclusively. Foreign companies will have to pay most of the claims.

Money For Sufferers.

Ottawa, April 27.—The government at cabinet meeting decided to give \$100,000 to relieve the sufferers of the Ottawa and Hull fire. Ten thousand dollars will be given for immediate use. The city council has decided to give \$10,000.

Aid From Chicago.

Chicago, April 27.—Mayor Harrison opened subscriptions for the Ottawa, Ont., fire sufferers. The list was headed by Mrs. Cyrus McCormick, and grew rapidly during the day.

Washington, April 27.—Acting secretary of War Melville John received a telegram from General Davis, commanding the military department of Porto Rico, saying that Governor Alfonso had just arrived at San Juan on the United States steamship Dolphin. He gave no details of the reception accorded the new executive of the island, but it is supposed in accordance with the program he arrived in state, escorted by the vessels of the North Atlantic squadron, and was received with salutes and other military honors.

LORD ROBERTS

Notifies War Department About Appointment of Military Governor.

London, April 27.—The following dispatch has been received at the war office from Lord Roberts at Bloemfontein:

"At the request of the high commissioner, General Warren has been appointed military governor of Griqualand West, while that part of the country is in a disturbed condition."

This curious dispatch constitutes all the war news received up to this hour. The country is eagerly awaiting to hear whether General French succeeded in cutting off the retreating Boers; but of his progress there is no word. The military critics of the afternoon papers differ as to the chances of another Paardeberg, but they agree in considering the situation in the Free State as being eminently satisfactory. They argue that even if General French is unable to intercept the main Boer forces he may score considerable success in a series of rear guard action or the isolation of straggling bodies.

Lord Roberts' peculiar reference to Sir Alfred Milner over Warren's appointment lends itself to the inference that the commander-in-chief of the British forces in South Africa scarcely approves of it, and that the previous report that Warren had been recalled was correct, but that he was saved from coming home by the action of the British high commissioner.

According to a special dispatch from Lorenzo Marques, the latest authentic estimates of the Boer forces place them at 30,900, of which 13,000 are at Kroonstadt, 6,000 at Fourteen Streams, 6,000 in Natal, 700 about Mafekeng and 1,000 at Pretoria, while 250 have been ordered north to intercept General Carrington's force. The work of entrenching Pretoria is progressing.

Grant's Birthday.

Galena, Ills., April 27.—General U. S. Grant's birthday was observed here, with Governor Theodore Roosevelt, of New York, as the principal orator. Special trains were run by the railroads and the announcement that the famous governor of the Empire state was to be present brought thousands of people into the quaint little city, which for years was the home of the deceased general.

Nearly every business block and hundreds of private residences were ablaze with flags and bunting. The special train bearing Governor Roosevelt, Mrs. Nellie Grant Sartoris, her son, Captain Sartoris, and other distinguished visitors, arrived from Chicago shortly before the exercises began at Turner hall.

Death of a Lawyer.

New York, April 27.—Thomas Harland, 70, a wellknown lawyer, is dead. In his younger days his intellect and legal acumen were important factors in the creation of the American system of internal revenue law that originated under the exigencies of the civil war. He was also the practical framer of our existing patent law. When the internal revenue bureau was founded at Washington in 1863, he was added to its force, and speedily proved an invaluable aid to Joseph Lewis, the first commissioner of internal revenue.

Want Three Dollars a Day.

Cleveland, April 27.—A conference has been held here by delegations of the International Molders' union and the National Foundrymen's union in regard to the demand of the union that molder's wages in this city shall be increased from \$2.75 to \$3 per day. They prepared a proposition which will be submitted to the molders and the foundrymen in this city, continuing the rate of \$2.75 until July 1. Between now and that time, Mr. Valentine says the union molders in all the large cities in the United States will make a formal demand for \$3 per day.

Landauer Bankrupts.

Milwaukee, April 27.—Adolph Landauer filed a personal petition in bankruptcy in the United States court. Liabilities are stated to be \$391,945 and assets \$289,945. Of the liabilities the petition states that \$254,355 should be paid by other parties on indorsed paper. Mr. Landauer is manager of the Southern Agricultural works at Atlanta, Ga., but this concern is in no way effected.

More Rain in Texas.

Dallas, April 27.—Torrents of rain have been falling all over Texas. It is estimated that fully an inch fell at Dallas between 11 and 11:30 a. m. Crops are in such bad shape that if the rain continues a week longer a general replanting of corn and cotton will be necessary in many localities. Much of the wheat will be ruined by rust. More railroad washouts are being reported.

Montreal, April 27.—The Bank of Montreal has telephoned \$10,000 to the Ottawa fire sufferers.

Mr. Carnegie Tries to Dispel "Popular Illusions About Trusts."

GREAT AGGREGATIONS OF CAPITAL

Are Declared by the Millionaire Steel King to Be Beneficial to Both the Rich and the Poor on the Earth.

New York, April 27.—Andrew Carnegie, in an essay in a May magazine, entitled "Popular Illusions About Trusts," advocates great aggregations of capital as of benefit both to rich and poor. He says:

Every attempt to monopolize the manufacture of any staple article carries within its bosom the seeds of failure. Long before we could legislate with much effect against trusts there would be no necessity for legislation. The past proves this, and the future is to confirm. There should be nothing but encouragement for these vast aggregations of capital for the manufacture of staple articles. "As for the result being an increase of price to the consumer beyond a brief period, there need be no fear. On the contrary the inevitable result of these aggregations is finally and permanently to give to the consumer cheaper articles than would have otherwise been possible to obtain, for capital is stimulated by the high profits of the trust, for a season, to embark against it.

"The result is very soon a capacity of production beyond the wants of the consumer, and as the new works erected are of the most improved pattern and capable of producing cheaper than the old works, the vulnerable trusts are compelled to buy and capitalize at two or three times their cost. There is thus no danger ahead to the community from trusts, nor any cause for fear.

"Competition in all departments of human activity is not to be suppressed. Already the ghosts of numerous departed trusts, which aimed at monopoly, have marched across the stage of human affairs, pointed to its fatal wound, inflicted by that great corrective, competition. The only people who have reason to fear trusts are those who trust them.

"We conclude that this overpowering irresistible tendency toward aggregation of capital and increase of size in every branch of product cannot be arrested or even greatly impeded, and that instead of attempting to restrict either we should half every increase as something gained, not for the rich, but for the millions of poor, seeing that the law is salutary, working for good and not for evil. Every enlargement is an improvement, step by step, upon what has preceded. It does not tend to make the rich poorer, but it does tend to make the poor richer in the possession of better things and greatly lessens the wide and deplorable gulf between the rich and poor.

"Superficial politics may, for a time, deceive the uninformed, but more and more will all this be clearly seen by those who are now led to regard aggregations as injurious."

Hanna Will Be Chairman.

Cleveland, April 27.—General Charles F. Dick is quoted as saying that he felt certain that Senator Hanna would again accept the chairmanship of the national committee, and would direct McKinley's campaign for reelection. Asked as to what he thought of Admiral Dewey's candidacy, General laughing said: "Well, I don't think very much about it. The Republicans and Democrats at Washington don't even consider Admiral Dewey's candidacy seriously." Senator Hanna and General Dick left here for Pittsburgh, where they attended a banquet en route to Washington.

A DIFFERENCE OF FIFTY MILLION DOLLARS.

Comparing the reports of the Secretary of the Treasury made to the House and the statement of the Commissioner of Internal Revenue, there is a discrepancy of over fifty million dollars to the advantage of the surplus and against Mr. Gage's report.

This discrepancy is too large to be accidental, says a writer, and there are a great many people inclined to accuse Mr. Gage of a deliberate design to mislead Congress and the people.

In the figures sent to the House by the Secretary, the items and amounts given agree precisely with the same as stated by the Commissioner, but the latter presents others which the former ignores. They are: Increase on tobacco, \$16,262,685.27; increase on beer tax, \$29,129,137.31; special taxes, \$4,874,620.21; total, \$50,266,442.79. Thus, while Mr. Gage is quoted as asserting that the war taxes of 1899 brought in only \$45,724,540.94, the internal revenue bureau places the receipts from that source for the year named at \$55,990,983.73.

It would be wise for the people and also Congress to be on their guard against Mr. Gage's system of bookkeeping, for if the official figures are liable to an error of fifty millions of dollars, all of his reports are open to suspicion.

THE CONGRESSIONAL RACE.

Kehoe Can Win If Any One Can—Brilliant and Aggressive Young Democrat.

Brooksville Review: "Hon. J. N. Kehoe, of Maysville, has entered the race for Congress. The nomination is rightly his, and if any Democrat can win, Mr. Kehoe is the man, and if he gets the nomination he will give Mr. Pugh the race of the life."

Augusta Chronicle: "In this issue will be found the announcement of Hon. J. N. Kehoe, of Maysville, who again seeks the Democratic nomination for Congress in this district. This sterling young Democrat is too well known by the people of this section to need any praise at our hands. Safe to say, however, no one has given the party better service than Mr. Kehoe. At any and all times his voice has been raised in behalf of his party. Bold, brilliant and aggressive, given the nomination, victory will perch upon the Democratic party."

Al. G. Field's Minstrels.

Dan Quinlan, the Chesterfield of modern minstrelsy, is again at the helm with the Al. G. Field's Greater Minstrels. Mr. Quinlan is possibly the best known interlocutor in the profession. His costumes are always beautiful and his courtly manner and breezy conversation when in the first part, is one of the features of the performance. Dan is also stage director and it is said his new overture "Sparks From the Opera" is the prettiest and catchiest musical novelty that has ever been used in the opening of a minstrel entertainment.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machias, Me., when the doctors said she could not live till morning," writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all Throat, Chest and Lung Diseases. Only 50c. and \$1. Trial bottles free at J. Jas. Wood & Son's drug store.

ENORMOUS SUM.

Of the People's Money That Has Disappeared Since the War Began.

1 Washington Spec. New York Journal.]	
Beef contracts and other subsistence	\$ 5,000,000
Colliers	1,500,000
Purchase of transports of army	5,000,000
Chartering of transports, army	3,000,000
Clothing contracts, army	1,000,000
Manipulations of money in depositaries	5,000,000
Subsidized ship owners prospective (for ten years)	90,000,000
Stolen from Puerto Rico (to be returned)	2,000,000
Total	\$112,500,000

It is believed that more than \$100,000,000 of Government money has gone astray actually and in prospect, and has found its way into the pockets of favored contractors and other corporate or trust interests during and since the war with Spain. This enormous steal, made possible by unnecessary expenditures by the Government, was practicable in several ways, and in the purchase of subsistence stores for the army, equipment, the colliers for the navy, the transports for the army, by the charters of vessels, the renting of lands and in a dozen or more different transactions.

The first of these great scandals was the beef contracts. The second, the scandal growing out of the purchase of several colliers, as in the case of the Merrimac. The third was in the purchase of transports for the Atlantic Coast war. These cost the Government in round numbers \$8,000,000, and \$5,000,000 for repairs, a total of \$13,000,000.

The fourth was in the chartering of army transports. The total amount paid for this service was approximately \$8,000,000, and the amount for repairs was nearly \$3,000,000.

The fifth opportunity was in the purchase of clothing for the army.

The sixth was in the naming of depositaries for Government money, as in the case of the City National Bank of New York, the North American Trust Company in Cuba and others, whereby vast sums of money were unnecessarily paid out by the Government.

And, lastly, it is proposed to give the ship owners \$9,000,000 annually through the ship subsidy bill.

One night recently dogs killed and wounded 130 sheep belonging to John B. Foster, of Lincoln. His loss will be over \$400. This says the Lincoln Democrat, was the greatest slaughter of the innocents by canines that has been heard of in Kentucky for thirty-four years, since the spring of 1866, when 140 of Ed. Owsley's sheep were killed one night by worthless dogs, on his farm four miles from Danville.

Cold Steel or Death.

"There is but one small chance to save your life and that is through an operation," was the awful prospect set before Mrs. I. B. Hunt, of Lime Ridge, Wis., by her doctor after vainly trying to cure her of a frightful case of stomach trouble and yellow jaundice. He didn't count on the marvelous power of Electric Bitters to cure stomach and liver troubles, but she heard of it, took seven bottles, was wholly cured, avoided surgeon's knife, now weighs more and feels better than ever.

It's positively guaranteed to cure stomach, liver and kidney troubles and never disappoints. Price 50c., at J. Jas. Wood & Son's drug store.

TWO CASES REVERSED.

Opinion of the Court of Appeals in the Action of the Commonwealth Against Ben Lauth and Henry Pabst.

In reversing the case of the Commonwealth against Ben Lauth and that of the Commonwealth against Henry Pabst, the Court of Appeals say:

The appellee, Ben Lauth, was indicted and tried in the Mason Circuit Court for failing to file with the County Clerk a descriptive list of lands owned by him in Mason County.

On the trial the court gave instructions usual and proper in form as to guilt and reasonable doubt, and then over objection of the attorney for the Commonwealth gave the following:

"The Court further instructs the jury that if they believe from all the evidence that the defendant, Ben Lauth, did personally list with the Assessor or Deputy Assessor of Mason County his land lying in Mason County, Ky., in the year 1898, the same being assessed for the taxes due in 1899, then he has complied with the law in this behalf and the jury will find him not guilty."

Under these instructions there was a verdict of not guilty and the Commonwealth appeals.

The section of the Statute under which this indictment was found is 4039, Kentucky Statutes, and by its terms the list required to be filed with the County Clerk must be by metes and bounds, courses and distances, and also give the nearest residence thereto. The list must be filed on or before the 15th day of August.

If the non-resident owner file such required descriptive list once, he would not be required to file such list each year, but as to that tract one filing is sufficient.

This statute is mandatory by its terms and it nowhere provides that any other act than a compliance therewith shall be sufficient to avoid the penalty therein imposed for a violation.

A listing of the property by the owner personally with the Assessor is not, in any sense, a compliance with the statute. The list given to the Assessor does not contain a description by metes or bounds, courses and distances, but only gives the number of acres, nearest resident and number of election precinct, as well as the value fixed by the owner, and may be listed between the 15th day of September and December of each year.

We are aware that in the case of Commonwealth vs. Ellis, Tenth Kentucky Law Report, 314, this court held that under section 11, of Article 1, chapter 92, General Statutes, a listing with the Assessor was a substantial compliance with that act.

That act did not provide for a description by metes and bounds, courses and distances, nor did it fix a time for filing a list.

It could be said of that act without violence to its language that the list given to the Assessor was such descriptive list as there required and no time was fixed in which to file with the Clerk, it might be said that the filing of the assessment list was within the time contemplated, and that thus the statute was substantially complied with.

This cannot truly be said of the present law; a listing with the Assessor is not sufficient.

The legislative department has recognized that the law is a hard one, and at its recent session has amended the section so that a listing with the Assessor by the owner personally will relieve him of filing the list with the Clerk, that is as to each year listed, and it is amended further by reducing the penalty and by providing that the amended law shall apply to all prosecutions not tried before it becomes effective, which is June 12, 1900.

For the reason indicated in giving the instruction No. 2 the judgment is reversed and cause remanded for a new trial and for further proceedings consistent herewith.

Whole court sitting.

Frank P. O'Donnell, Ed. Daum, R. J. Breckinridge for appellant; T. D. Slatery for appellee.

THE PAINT CASE.

Appellee was indicted, tried and acquitted in the Mason Circuit Court on the charge of failing to file with the County Clerk a descriptive list of lands in Mason County, it being charged in the indictment that appellee was a non-resident.

The defense presented was that appellee was not a non-resident, but resided in Mason County, his absence being temporary, and that he had personally listed his property with the Assessor.

Except as to residence the case is identical with the case of Ben Lauth, this day decided.

On the trial the court gave proper instructions

as to guilt, reasonable doubt and on the question of residence, and also gave an instruction as to a substantial compliance by personally listing with the Assessor as in the Lauth case.

For the reasons given in the opinion in the Lauth case this instruction was erroneous, and the judgment is reversed and case remanded for new trial and proceedings consistent herewith. Whole court sitting.

Frank P. O'Donnell, R. J. Breckinridge, Ed. Daum, for appellant; Wm. D. Cochran, for appellee.

PITHY POINTS.

(By Robert Taylor.)

The English are finding in the Boers more than a breakfast spell.

Doubtless the English would like to be well clear of that South African crowd.

It's hard to say which hate Cecil Rhodes the more fervently; by this time, the Boers or the English.

Gatacre, too, who was cracked up to be such a mighty General, has folded his tent and "gat" away to England.

It looks now like Taylor mightn't wait for the Republicans to run him in November, but he would hurry off at once.

The State of Kentucky is not "disgraced" by Taylor's villainy, only as it's a disgrace to have such a pack in the State.

Had the Boers one half the men and resources possessed by the British, none of the latter would get back to tell the tale, unlikely.

It may be that Taylor will show his admirers a trick worth two giving himself up and standing trial on the indictment found by the grand jury.

General Butler was thought at one time to be a bull on the South African "exchange," but he, too, has settled down to be nothing more than a bear.

Every true American must sincerely sympathize with the handful of gallant Boers who are standing out against the greed and oppression of the English.

We guess the "Yellows" who don't believe Taylor had anything to do with the murder of Governor Goebel, don't know as much about the case as the Franklin County grand jury.

The Prince of Wales displayed such coolness under fire when that boy anarchist took a shot at his royal Highness in Belgium recently that he might be sent to try his prentice hand in place of one of those luckless guards who have lately been recalled from South Africa.

It is consistent in millionaires and rich snobs to hate the English as against the poor Boers, but Republicans of small means have no more grounds for such feeling than they have for imagining that their interests are allied with the power of England and "imperial" America.

POINTS FOR TOBACCO GROWERS.

[Springfield, Tenn., Herald.]

The following ten facts should be borne in mind by tobacco growers:

That tobacco must have good size to command good prices.

That short tobacco sells for short prices.

That poor land or poor cultivation makes short tobacco.

That lugs and all kinds of defective leaves sell low.

That it requires good land and good cultivation to get good size.

That it requires good leaves and proper firing and handling to make fine, finished tobacco.

That a common crop, raised and handled in a haphazard way, never pays for raising.

That a small crop of good to fine, well finished, pays much better than a large crop of common.

That a large majority of countries using our tobacco want dark colors.

That good, sound leaves, nicely cured and of good size, always pay the planter a profit.
